

BELDEN ALTERNATIVE - 84 RANGE

Belden Alternative power cables serve as the foundation for industrial setups, facilitating signal and power transmission within cable trays and enclosures. These cables adhere to rigorous standards, ensuring high-speed and high-quality end-to-end data transmission across various communication technology applications. They cover a wide range of industries including automation & process control, power generation, and data centres. With a focus on meeting Electronic Industries Alliance (EIA) standards, Belden equivalent cables are engineered to support high-speed data transmission, offering scalability to accommodate different project sizes. Reliable data transmission is crucial for businesses, underscoring the importance of installing top-quality cables for seamless operations.

CONDUCTOR	Tinned Copper
STRANDING	Class 2
INSULATION	PVC
OUTERSHEATH	PVC
OUTERSHEATH COLOUR	Grey
CORE IDENTIFICATION	Black White Red Green
OPERATING TEMPERATURE	80°C

SPECIFICATION DATA

BATT Part No	Belden Reference	No. of Pairs	AWG No. of strands	Approx overall diameter	Weight
91301	8442	2 Core	22 AWG	4.3	23
91060	8443	3 Core	22 AWG	4.3	27
91061	8444	4 Core	22 AWG	4.5	33
91458	8471	1	16 AWG	7	57
