
STAINLESS STEEL CABLE TIES

Stainless steel 316 grade roller-ball locking cable ties are manufactured to be more resistant to chemicals and corrosive materials. Suitable for fixing cable bundles.

Specification:

Operating Temperature Range: -60°C to +300°C

Flame Resistance Testing: UL94 V2

UV Resistant

SPECIFICATION DATA

| Batt Part No. | Length (mm) | Width (mm) | Max Diameter Bundle (mm) | Min. Tensile Strength (kg) | Material |
|---------------|-------------|------------|--------------------------|----------------------------|---------------------|
| 66063 | 200 | 4.6 | 59 | 66 | Stainless Steel 316 |
| 66003 | 300 | 4.6 | 85 | 66 | Stainless Steel 316 |
| 66064 | 360 | 4.6 | 110 | 107 | Stainless Steel 316 |
| 66067 | 360 | 7.9 | 107 | 68 | Stainless Steel 316 |
